

The **Online Berry project** is a unique, closed, decentralized ecosystem designed to supply people with the vitamins found in fresh berries. It is based on blockchain technology, using Amazon Web Services for Ethereum and Hyperledger Fabric.

It includes:

- Scalable Berry Systems (SBS)
- An integrated enterprise for the cultivation of berries
- A Commodities Trading Portal
- Direct supply of fresh berries to the end consumer and innovative packaging for the transportation and storage of fresh berries, based on the technology used to preserve the food consumed by astronauts
- In-house processing
- A science and research centre for microcloning plants, and nurseries using class A+ planting material

The project has been in development since 2016. A fully costed and transparent financial model has been developed.

Vitamin Token (VMT) – commodity token. 1 **VMT** guarantees the VMT holder 1kg of fresh berries (raspberries, blackberries, or blueberries) at a nominal value of USD 1. **VMT** holders have the right to receive project goods once a year. Goods can either be consumed or else easily sold via the Commodities Trading Portal.

Discounts are planned at certain stages of the ITO:

Stage	1	2	3	4
Period	20 days	20 days	30 days	30 days
Discounts	80%	75%	67%	50%
VMTs available	5 000 000 1VMT=0.20 USD	8 000 000 1VMT=0.25 USD	12 000 000 1VMT=0.33 USD	14 000 000 1VMT=0.5 USD
Minimum purchase	2 500 VMT	1 000 VMT	500 VMT	20 VMT

Hard cap = USD 14,000,000

In the event that the hard cap is reached, collection of funds will be halted.

Soft cap = USD 3,000,000

All funds will be returned in the event that the soft cap is not reached.

The ITO will be conducted in accordance with the prevailing legislation of the Republic of Singapore.

The Online Berry project meet the requirements Monetary Authority of Singapore – MAS.

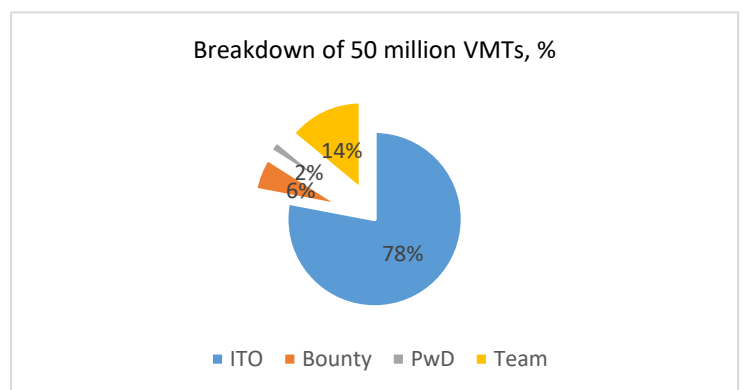

The **Online Berry project** brings together crypto-economics and real-world business, using blockchain technology and rigorous financial accounting to create a fundamentally new ecosystem. The system is transparent and controlled by its community of Vitamin Token (VMT) holders.

- VMTs are entirely backed by project goods. VMT holders receive annual rewards for supporting the project.
- By 31/12/2020, 90% of all goods produced by the project will be used to contribute to the value of VMTs, which will remain with their holders.
- Guaranteed sale of goods through our own Commodities Trading Platform: a system which presents you with the most advantageous offers from retail chains and/or end consumers.

The total offering is 50 million VMTs:

- 39,000,000 VMT - ITO
- 3,000,000 VMT – Bounty program
- 1,000,000 VMT - People with disabilities program
- 7,000,000 VMT - Team (VMT will be frozen until March 2021)

No additional release of tokens is envisaged. VMTs cannot be mined.
